

An aerial architectural rendering of the Colombo Port City development. The image shows a dense urban layout with numerous high-rise buildings, green spaces, and a waterfront area with a curved road and a small harbor. The text is overlaid on the image.

# **HOUSING IN COLOMBO PORT CITY**

**NIHAL FERNANDO**  
**PROJECT DIRECTOR/COLOMBO PORT CITY**  
**DY.DIRECTOR GENERAL/UDA**

**22<sup>ND</sup> SEPTEMBER 2016**

Dream of the creators of Port City is to make it a sustainable addition to the City of Colombo, generating Business, Tourism and a place with high quality of life

- The New City will be well connected to and integrated with the existing City of Colombo
- One of the main features of the new city will be the high quality of public spaces and residential environments
