INNOVATION MINDSET

INSPIRING INNOVATION IN YOU(TH)

News Releases 19 Apr 2015

- App developers can tap on more real-time data to create transport solutions
- 501 wins highest accolade at Transport & You(th) Hackathon

Do you have an idea for the next big transport app? You can now tap on more real-time public transport data to create transport solutions that will improve the lives of commuters.

2. More than 180 youths registered for the Transport & You(th) Hackathon organised by the Land Transport Authority (LTA) to compete for the highest honour and the opportunity to intern at LTA, EZLink Pte Ltd, and NCS Ltd. Held from 16 to 19 April at the Devan Nair Institute, teams of coding enthusiasts pulled out all stops to design transport apps that would enhance public transport experience for commuters, improve public transport experience for those with special needs and encourage the use of more sustainable modes of transport, such as walking and cycling.
